

## Quick Start Guide

# PLAY VIDEO PAGE

### CLOSED-CAPTIONING

The screenshot shows the Films On Demand interface. At the top, there's a navigation bar with 'HOME', 'SUBJECTS', 'SPECIAL COLLECTIONS', 'PLAYLISTS', and 'FAVORITES'. A search bar is on the right. The main content area features a video player with a 'CC' icon and 'is off' text. Below the video are options to 'Email this Video', 'Add to Playlist', 'Add to Favorites', 'Embed this Video', and 'Citation'. To the right of the video is a 'Segments' list with tabs for 'Segments', 'Full Title', and 'Related'. The segments list includes:
 

- 1. Inside a Human Cell (03:24)
- 2. Genomics and Human Genome Project (04:49)
- 3. Genomes and Treatment of Disease (03:30)
- 4. Protein Measurements (04:42)
- 5. Data Analysis and Bioinformatics (05:10)
- 6. Future of Human Genome Studies (01:49)

 Below the video player, there's a 'NOW PLAYING' section with the title 'Bioinformatics, Genomics, and Proteomics: Getting the Big Picture (25:00)'. A detailed description follows, mentioning the 21st century's focus on life sciences and the role of genomics, proteomics, and bioinformatics. At the bottom, there's a 'Filed Under' section for 'General Biology' and a 'Title URL' field containing 'http://digital.films.com/PortalPlaylists.aspx?'. The footer contains contact information for Films Media Group and a copyright notice.
